

***Through a clinician education program of lectures, mailings, and interdisciplinary conferences, RAFV increases medically appropriate utilization of imaging services.***

**Sample lectures presented by our radiologists:**

- “Lower Back Pain”
- “Peripheral Vascular MRA and CTA”
- “Hematuria”
- “Osteoporosis and DXA scanning”
- “Perfusion MRI”
- “Current Status of Breast Imaging”
- “Quality Issues in Radiology”
- “Imaging of Chest and Abdominal Trauma”
- “Advanced Applications of MRI”
- “Stroke Imaging”
- “Vertebroplasty, Kyphoplasty, and Sacroplasty”
- “Interventional Oncology”
- “Abdominal Aortic Aneurysms”
- “Cardiac CT Angiography”
- “Imaging Evaluation of Thyroid Nodules”
- “Optimizing the Ordering of Imaging Examinations”
- “Uterine Fibroid Embolization”
- “New Applications of Multidetector CT”
- “Breast Cancer Awareness: MRI and Surgical Options”
- “Endovascular Therapy of Aneurysms”
- “Radiology in Vascular Trauma”
- “Future Outlook of Radiologic Technology”
- “Interventional Radiology: The Latest Procedures”
- “Radiofrequency Ablation”
- “Using MRI in the Abdomen”
- “MRI of the Sellar and Parasellar Regions”
- “CT Colonography”
- “Imaging Evaluation of Pulmonary Nodules”
- “Seizure Imaging”
- “Trauma in the Outpatient Setting”
- “Radiation Safety in Pediatric Imaging”
- “Applications of Cardiac MRI”
