

Through a dedicated program of lectures, mailings, and interdisciplinary conferences, RAFV educates clinicians regarding medically appropriate utilization of imaging services.

Sample lectures presented by our radiologists:

- "Back Pain Update 2008." Donald Renfrew, M.D.
- "Peripheral Vascular MRA and CTA." Andrew Ayoob, M.D.
- "Clinical Utility of DXA scanning." Paul Larson, M.D.
- "Perfusion MRI." Daniel Camacho, M.D.
- "Current Status of Breast Imaging." Rudolph Lin, M.D.
- "Quality Issues in Radiology." Bruce Douglas, M.D.
- "Imaging of Chest and Abdominal Trauma." Sandeep Rao, M.D.
- "Advanced Applications of MRI." Marc Miller, M.D.
- "Stroke Imaging." Todd Peebles, M.D.
- "Vertebroplasty, Kyphoplasty, and Sacroplasty." Fred Klein, M.D.
- "Interventional Oncology." Noam Littman, M.D.
- "Cardiac CT Angiography." Keith Knepel, M.D.
- "Optimizing the Ordering of Imaging Examinations." Paul Larson, M.D.
- "Uterine Fibroid Embolization." Daniel Macksood, M.D.
- "New Applications of Multidetector CT." Marc Miller, M.D.
- "Breast Cancer Awareness: MRI and Surgical Options." Rudolph Lin, M.D.
- "Endovascular Therapy of Aneurysms." Todd Peebles, M.D.
- "Radiology in Vascular Trauma." Daniel Macksood, M.D.
- "Future Outlook of Radiologic Technology." Marc Miller, M.D.
- "Interventional Radiology: State of the Art." Benjamin Smith, M.D.
- "Radiofrequency Ablation." Noam Littman, M.D.
- "MRI of the Sellar and Parasellar Regions." Todd Peebles, M.D.
- "CT Colonography." Andrew Ziegert, M.D.
